EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: Figure 2, that was selected by the Examiner to be printed on the face of the patent, has been amended as per the attached drawing, to make the claimed invention immediately recognizable.

Drawings

2. New corrected drawings (Figures 1 and 2) in compliance with 37 CFR 1.121(d) and 37 CFR 1.84 (l) and (p)(3) are required in this application because Fig. 2 has been amended by the Examiner as per the amendment above, and both Figures 1 and 2 do not comply with 37 CFR 1.84 (l) and (p)(3). Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 1-19 are allowed.
4. The following is an examiner's statement of reasons for allowance: prior art does not teach in combination with the other limitations of the independent claims the

combination of a turbine engine and the application of an electrical charge to a cooling fluid upstream the compressor.

Note that the hypothetical statement of Pradt 6484507 on col. 3, ll. 46-49 amounts to a speculation that does not enable its application as a non-preferred embodiment of prior art, as there are multiple and various ways to apply electrostatic forces to manipulation of sprays.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Trewin 6553768.
